

## CIDC CSR INITIATIVES

### Training of Project Affected Persons (PAPs)

Construction Industry Development Council (CIDC), was established by the Planning Commission, Government of India and the Construction Industry as the apex organization of construction industry.

CIDC actively pursues the agenda for rehabilitation of **Project Affected Persons** and helps organizations achieve their **CSR goals**. Our patrons for this program include Rural Electrification Corporation, Engineering Projects India Ltd., Reliance Infrastructure Ltd, GMR Foundation, HMEL, Teesta Hydroelectric Project, Sikkim and others.

Your CSR activities need to focus on Construction — the 2nd largest employment generating activity in the economy. Apart from providing alternate livelihood in rural economies, construction activities also generate community goodwill and create a positive social impact and visibility through asset creation. Training and skill development in construction trades lead to enhanced employment generation, both on immediate, as well as, long-term basis.

You can also leverage on CIDC's Construction Trades Training expertise and resources in a manner which we can customize with mutual dialogue for capacity building and meeting the demand of skilled manpower. This training will empower them with requisite skills and knowledge for executing various construction activities and also fosters livelihood generation and creation of a dedicated construction workforce for nation building .
